# PORTFOLIO HIGHLIGHTS

This Cities Alliance Annual Report covers a period of 18 months, from July 2012 – December 2013. The extended coverage enables the Cities Alliance to transition from its former platform at the World Bank,

which operates and reports on a mid-year fiscal year, and UNOPS, which operates by calendar year.

The following chart shows the number of projects approved during the period under

review and geographic distribution. The overwhelming number of projects approved were in Africa, in keeping with the Cities Alliance's focus on that region.
