LEARNINGS FROM 5 INSPIRING PROJECTS FROM AFRICA SUPPORTED BY THE CITIES ALLIANCE INNOVATION PROGRAMME

WHY INVEST IN TENURE SECURITY?

- Promote citizens’ investment in house or market stalls/businesses improvements
- Allow urban poor to access the value in their homes
- Protect from eviction and land grabbing
- Decrease the vulnerability of poor people
- Reduce gender inequalities
- Reduce land conflicts
- Promote equal access to infrastructure, basic services and public resources
- Decrease the vulnerability of poor people
- Protect from eviction and land grabbing
- Allow urban poor to access the value in their homes
- Promote citizens’ investment in house or market stalls/businesses improvements
- Reduce gender inequalities
- Reduce land conflicts
- Promote equal access to infrastructure, basic services and public resources

Ivory Coast
Association 3535
Created a web application for obtaining a permit to use public spaces for commerce

South Africa
CAHF & 71point4
Introduced a walk-in advice office to work with low-income clients to resolve property-related issues

Tanzania
Spatial Collective
Used ubiquitous digital technology to enhance local capacity and support evidence-driven land and property rights interventions

Kenya
Pamoja Trust
Adopted land management tools, such as STDM, that can account for the different types of tenure found in informal settlements

ORC
MOAC
Combined participatory multi-stakeholder dialogue with the use of drones to map land parcels
