

Latin America and the Caribbean - Chile

Summary

Chile held the "Mes del Barrio", a celebration of space & balance of work achieved over 3 years of implementing the ongoing Neighbourhood Recovery Program of MINVU. The event provided an opportunity to reflect on the social, academic & institutional recovery of neighbourhoods & building of inclusive cities. In order to share the three activities with a broader audience and to contribute to the dialogue on issues related to the recovery of neighbourhoods and the city, MINVU and its partners wish to document the main reflections and lessons that emerged from the Mes del Barrio experience through a print and digital publication that not only records the highlights of the event and discussions but contextualises and analyses Chile's National Recovery Program.

Objectives

Documenting the Chilean Neighbourhood Recovery Program, in particular Mes del Barrio including: best practices, expobarrio, International Forum, Contextualising and analysing the Chilean Neighbourhood Recovery Program, synthesising and disseminating the lessons learned from implementation to date to a national and international audience.

Activities

The publication "Mes del Barrio" would be published as a 3-volume set, with each volume able to serve as a stand-alone piece.

- Hiring of consultants for the translating (Spanish-English), editing, layout and design and printing of the 3 volumes as well as the CDs and DVD

Volume 1: Mes del Barrio: (i) Summary of the activities; (ii) Expobarrio and (iii) Photographic register

Volume 2: Best Practices: (i) Best Practices Contest and (ii) Systematization

Volume 3: Second International Forum: (i) Transcript of recording approximately 18 hours; (ii) Document systematization main ideas and debate; and (iii) National and International distribution

Submission

Submitted by: Ministry for Housing and Urban Planning (MINVU)

CA Sponsor: GTZ (Chile)

Implementation

Implemented by: MINVU) and GTZ (Chile)

CA Monitor: Andrea L. Merrick

Budget and Time

Request to CA: \$ 74,970

Co-financing: \$ 28,480

Total Budget: \$103,450

Duration:
5 months

Expected Impact and Results

Developing documents that will contribute to a future Sustainable Policy on Neighbourhood Recovery in Chile
