Cities Without Slums

3<sup>er</sup> CONGRESO CIUDAD DE MÉXICO 3<sup>e</sup> CONGRÈS VILLE DE MEXICO

The Cities Alliance will be hosting a session titled, “Building Cities and Citizenship” as part of the **Third World Summit of Local and Regional Leaders**, being organised by the United Cities and Local Governments (UCLG) in conjunction with the municipality of Mexico City, where it will take place from November 16 to 20, 2010. This, for us at Cities Alliance presents an excellent opportunity to meet with, learn from and share knowledge with over 2,000 Mayors.

Our session on Building Cities and Citizenship is being billed as the fourth under the sub-theme, “Innovating in a cold economic climate,” and is scheduled to be held on the afternoon of Thursday, November 18, 2010. This session will focus on the Latin American experience of enabling the rights of all citizens to the city, the political will and the participatory urban reform processes that enable this, with a particular focus on the City Statute of Brazil, one of the most far reaching urban policy reform measures introduced in recent years. Invited Speakers will be asked to present lessons learned and recommendations from their own local experiences of these processes. The overarching goal is to promote key messages on the rights of all citizenry to a safe, sound and equitable urban life, and on the role of municipalities in drawing up the requisite urban policies and programmes that will ensure this.
